From the Principal

Our community has been fabulously entertained during the past week or so. Our Year 12 Music students presented their pieces to large crowds, the HSC Drama class held a public performance evening prior to the practical examination, and the Performing Arts Ensembles farewelled their Year 12 members at a wonderful concert. Additionally, our Annual Art Exhibition opens tonight.

Thank you to the Creative and Performing Arts Faculty and the Drama teachers for organising this cultural bounty, and to the talented and committed students.

Last week the Sports Council brought beach volleyball and tacos to the quadrangle, as part of a very popular Olympics themed mufti day. Over \$1600 was raised, which will be used to fund a project with Menindee Central School.

Our Year 11 MUNA (Model United Nations Assembly) team were the occasional speakers at last week's Lindfield Rotary Club meeting. Lindfield Rotary is a good friend of Killara High School, financing the entry of two teams in this valuable competition, and our students were thrilled to be able to share their experiences with the group.

Thank you Sophie Allen, Careers Adviser, for your part in the North Shore 5 Careers Expo last week. Five secondary schools certainly constitute a large audience, and this event attracts many tertiary institutions and employers.

We have farewelled our long-standing District Guidance Officer, Julia Griffith. Julia has served Killara not just as DGO but also as one of our counsellors for ten years, and her wisdom and care supported countless students and staff. Julia's knowledge of policy and practice is faultless, and her compassion and her commitment to helping every student achieve and grow is truly admirable. We will miss you enormously, Julia, and wish you well in your new position in a great school closer to home. We are fortunate to have obtained the services of Serge Boyakovsky as our second counsellor in the interim.

Jane Dennett
Principal

Sports Council Mufti Day

Well done and thank you to the students of Killara High School who supported the Sports Council Mufti Day which took place on Friday of Week 5.

The theme was 'the Olympics' so many students were decked out in their favourite country's jersey. Students contributed their \$2 and many took the opportunity to buy a taco at lunch.

Over \$1,600 was raised to support a yet to be confirmed project within the Killara/Menindee partnership.

There was also a massive game of volleyball in the quad at lunch in honour of our 2 former students, Mariafe Artacho del Solar and Nicole Laird, who represented Australia at the Rio Olympic Games in Beach Volleyball. Well done to Doongara who claimed glory in the volleyball, defeating Kimba in a well contested final.

Special mention must go out to the outgoing Sports Council for all their hard work in delivering the event, as well as Mrs Allcott and Ms Mackenzie from the TAS faculty for their help and support in food preparation.

Adam Bruckshaw
Carnivals Organiser

School Excursion Travel using Opal Cards

School Opal cards are **not** valid for travel on school excursions. Therefore, parents/guardians should ensure students have enough credit on their Child/Youth Opal card to cover the travel. School Opal cards are valid for trips to and from a student's school and home. They are not valid for travel on school excursions.

Robin Chand
Deputy Principal

Year 12 - Don't miss EKUBA

There are less than two weeks left to buy tickets to the Year 12 Farewell Ekuba Dinner.

Year 12, this is your big event! Don't miss out - buy your tickets now.

You will be treated to a magnificent three course sit down dinner from award winning Blond Catering, who won the 2015 National Caterer of the Year and 2015 National Venue Caterer of the Year at the Savour Australia Restaurant and Catering Hostplus Awards for Excellence.

So come along and enjoy some great school entertainment and a chance to celebrate your time at Killara High School at the Kerrabee Centre on Thursday 22 September.

Tickets cost \$78 per person and are available up to 7 September or until sold out.

Due to space restrictions numbers are strictly limited to two guests per student family.

Bookings: www.trybooking.com/141586

Killara Schools Partnership, Creative Writing Workshop

Monday morning brought to Killara High School an excited group of Year 4 students who were undertaking a creative writing workshop. The students learnt a great deal and commented, "One and a half hours isn't enough time to write a story", Mrs Cigana, Head Teacher English, facilitator agreed. "We had only begun writing our stories when it was time for the creative writers to say goodbye".

Our school Captain Jett Ho visited the young writers, as they wanted to show him what they had been doing and to share some of their stories with him.

Altogether an enjoyable learning experience for Killara High School and our partner primary schools.

Chris Cigana
Head Teacher English

Annual Open Day

Monday 29 August 2016
12.00pm – 4.00pm

Students at work
Classes to visit in all curriculum areas
Individual and group student performances

Children and families from our local primary schools especially welcome

Health Psychology Unit, UTS presents,

Teens and screens: How much is too much?

Is your child constantly using screens? Is it always a battle to try and get them off? Do you have difficulty trying to figure out what the right balance is? Come along to this interactive and highly engaging presentation and find out all you need to know about what a healthy digital diet looks like!

Dr. Justin Coulson PhD.

This presentation, delivered by one of Australia's best-known and leading experts in this area, is designed to help parents and their children understand why screens, games, and social media are so compelling and how their children can enjoy them in healthy, balanced ways so that the other parts of their lives can be as successful as their advancement through the levels of their favourite game!

When Wednesday 7 September 2016
6:30pm-8pm

Where Health Psychology Unit, UTS
Ground Floor, 174 Pacific Highway St Leonards.

Tickets \$15

Any questions please call the Health Psychology Unit, UTS on 9514 4077 or email: healthpsychology@uts.edu.au

MindMatters

Please read this article on: *Risky behaviour in teenagers: how to handle it*, from the website: <http://www.raisingchildren.net.au>

It provides interesting information and strategies to use for those challenging times of parenting teenagers:

Risky behaviour in teenagers: how to handle it

Looking for new experiences is normal for teenagers, and sometimes it involves thrill-seeking or even risky behaviour. If you're concerned that your child is taking unsafe risks, there are things you can do to help your child stay safe – and ease your own anxiety.

Thrill-seeking and risky behaviour: why teenagers do it

It's normal for teenagers to want new experiences – although it can be stressful for you as a parent.

Teenagers need to explore their own limits and abilities, as well as the boundaries you set. They also need to express themselves as individuals. It's all **part of their path to becoming independent young adults**, with their own identities.

Also, the parts of the [teenage brain](#) that handle planning and impulse control don't completely mature until about age 25. This means teenagers are sometimes more likely than adults to make quick decisions without always thinking through the consequences.

And sometimes teenagers make decisions about potentially risky things to fit in with a group.

Common risky behaviour

It's normal for you to feel worried about risky behaviour like:

- Fighting
- [truancy](#)
- unprotected sexual activity
- tobacco smoking, [alcohol use](#) and [binge-drinking](#)
- illegal substance use

- dangerous driving
- illegal activities like trespassing or vandalism.

Teenage interest in new experiences and thrill-seeking can include less concerning behaviour, like trying new tricks at the skate park or expressing an unpopular opinion. This behaviour peaks at around 15-16 years and tends to tail off by early adulthood.

Keeping your child safe

Knowing that teenagers test limits doesn't make thrill-seeking and risky behaviour any easier to live

with. Here are some ideas to help your child think about consequences and stay safer:

- **Talk about behaviour and consequences** – for example, 'If he hadn't been speeding, he wouldn't have lost his licence. Now he's going to lose his job as well'. This can help your child learn to work out how much risk is involved in different situations.
- **Work out some agreed [ground rules](#)** with your child. Decide together on what the consequences should be if the rules are broken. You'll need to be flexible and adapt the ground rules as your child grows and shows she's ready for more responsibility.
- **Talk about values** – the earlier the better. Knowing what's important to your family will help your child develop responsibility and personal values. You can back up family values and rules by being a good role model in things like drinking alcohol, driving and treating other people respectfully.
- **Keep an eye on your child.** Knowing who he's with and where he is can help you protect your child.
- **Try to [stay connected](#) to your child.** If your child has a strong relationship with you, she's likely to do better at handling situations like pressure to use drugs or be involved in sexual activity.
- **Encourage a wide social network.** You probably can't stop your child from being friends with a particular person or group – but you can give him/her the chance to make other friends through sport, church or family activities. If you make your child's friends welcome in your home, it gives you a chance to get to know them.

- **Give teenagers a way out.** If your child feels [peer influence](#) to fit in, you could help her think of ways to opt out without losing credibility. For example, she could tell her friends that smoking gives her asthma.

Let your child know he can send you a text message anytime he feels unsafe and needs to be picked up, without worrying that you'll be angry.

Encouraging safe thrill-seeking

Teenagers need to take some risks to learn more about themselves and test out their abilities. This means that wrapping them in cotton wool is likely to backfire.

If your child is into thrill-seeking, try **channelling this energy into safe and constructive activities**, like rock-climbing, martial arts, canoeing or mountain biking. Some teenagers might find they love the 'rush' of performing in drama or creative arts.

Another strategy is to give your child [autonomy and independence](#) in some areas, so that she can explore her freedom without rebelling.

You might not like it if your teenager chooses blue hair or dresses in ripped clothing, but these are safe ways to experiment. For more information, read our article on [shifting responsibility to your child](#).

Support for handling risky behaviour

Thrill-seeking is a fairly normal part of adolescence, and most teenagers won't take it to the extreme.

If your child occasionally stays out past curfew, you might not worry too much. But if he regularly does things with dangerous consequences – like using drugs, getting into fights, drinking or breaking the law – consider seeking help and support.

Also seek help if you're worried that your child's behaviour is self-destructive or might be a sign of a deeper problem.

The best way to start is by **asking your family GP** for a referral to a psychologist or other mental health professional.

If you're having a hard time talking with your child about risky behaviour it might help to ask a relative or trusted family friend to raise the subject. Some teenagers find it hard to talk about sensitive issues like sex and drug use with their parents, but they might be willing to talk to somebody else. You could also ask your child's school counsellor for advice.

More information about teenage risky behaviour

Risky behaviour **varies according to gender**. Boys are more likely to experiment with fighting and skipping school, while girls are slightly more likely to smoke.

Some teenagers are more likely to engage in risky behaviour. Some young people have a tendency to seek out sensation more than others. That is, they enjoy the 'rush' of adventure and want new and exciting experiences.

Other teenagers have a different understanding of risk from their parents. Therefore, they don't see any real danger in what they're doing. When teenagers think their actions will have negative consequences, they do think more carefully about acting (although it's not certain whether they actually change their behaviour).

Some teenagers are very influenced by their peers and their need to fit in, so they do what they think is 'normal' for their group. Other teenagers want to perform, impress, show off or be different. In fact, **risk-taking among teenagers doubles when peers are around**.

Carla Marchesin
Deputy Principal

Careers Corner

School Information

Visit our School Careers Facebook page for the latest information. Search Facebook for 'Killara High School's Careers Page'.

Job Jump: The school is subscribed to Job Jump, a careers website which provides a wide range of information and resources. All parents, staff and students have free access. The password is kh and you can register with your personal email address. <https://jobjump.com.au/myCareer>

Year 10

Work experience forms are now due

Students must submit their work experience forms to the careers staffroom ASAP. Students should be actively looking for an organisation for their work experience. Students must visit the careers staffroom if they have any queries or concerns. For all documentation please see the Year 10 Careers Information section on the school website <http://www.killara-h.schools.nsw.edu.au/>

Service learning

Students completed the Service Learning preference form during home group 4/8/16. Students who were absent must check their school email and complete the google preference form.

TAFE

Students who have chosen a TAFE subject in their subject selection preferences must see Ms Allen in the careers staffroom for further information and collect an expression of interest form. Applications are now open.

Open Days

Students are encouraged to attend 1-2 open days so they can start mapping out post school options. This means students can attend other institutions in the following years and feel informed about the choices they make. For dates visit: http://www.uac.edu.au/documents/undergraduate/open_days.pdf

Year 11

All students will have a careers lesson during weeks 7-10 of this term to start planning and discussing post school options. This includes career testing.

Year 12

UAC Guides have arrived

Students are reminded to collect their copy of the UAC Guide and additional information from the careers staffroom as soon as possible, information has also been sent to all student emails. Students should have received their UAC Pin in the mail

which is required when applying with UAC. If you have not received your PIN you will need to phone UAC 1300 275 822 or see Ms Allen for more information. Watch this video on how to apply with UAC

<https://www.youtube.com/watch?v=bRV7LBCzjI8>

Interviews

Students are encouraged to book a careers interview time with Ms Allen in the careers staffroom.

Teach.NSW Online Q and A

29 August, 4.00pm to 6.00pm. This Q and A is for high school students interested in a teaching career. It will provide a chance to ask about the opportunities the Department of Education has for future teachers.

<https://www.facebook.com/events/278767835837694/>

Year 12 Lunchtime Sessions:

- **UAC Information Sessions** - Includes how to apply, how to check and change preferences, SRS and general discussion about the UAC process: Monday 22 August, Wednesday 24 August and Friday 26 August Lunchtime B18 <http://www.uac.edu.au/>
- **Macquarie University Entry Schemes and Alternate Pathways** – Includes SRS, scholarships and alternate entry pathways. Tuesday 30th August Lunchtime B18 <http://www.mq.edu.au/study/high-school-students/getting-into-university/entry-schemes-and-pathways/schools-recommendation-schemes>
<http://www.mq.edu.au/study/high-school-students/getting-into-university/entry-schemes-and-pathways/next-step-pathway>

Career Tips for School Leavers

<https://www.migas.com.au/news/expert-career-tips-for-school-leavers/>

Australian Veterans' Children Assistance Trust Scholarships

The scholarships are worth between \$3000 and \$5000 per year and may continue for up to four years.

To be eligible to apply for AVCAT scholarship you must be the child or grandchild of a person with operational service (as defined by the legislation) or three or more years' continuous full-time other service, as a member of the Australian Navy, Army or Air Force. You must be planning to enrol or be enrolled in tertiary education in Australia at an Australian university, TAFE or registered training organisation.

**SIDE BY SIDE:
BRINGING FUN BACK TO FAMILY!**

*Do you feel like you have run out of answers for parenting your child?
Are you feeling stressed and overwhelmed?*

The Health Psychology Unit, UTS is offering a *free treatment* research program for families who have children with behavioural problems.

Clinical psychologists from the Unit located near Royal North Shore Hospital will see families with children aged 7-14 for up to 16 sessions.

For more information please contact Dr Rachael Murrighy on 9514 4077 or at Rachael.murrighy@uts.edu.au
